

# Egbert's Barber Shop Lyrics

## PETER PAN AWAKES

Pan where have your children gone  
Did you lose them to your song  
Told the lie of Neverland  
Promise made on blood red sand

Falling

Pan, it's true, your childhood's lost  
Tribute paid, not worth the cost  
Are you crying, feelin ashamed  
After all it's you to blame

All along the borderline hear the sirens whail  
Carry the cargo on unmade road all the systems fail  
Have you ever seen them, have you ever tried  
When the walls come tumbling down no place to hide

While the man is driving on all the kings want more  
Hear the women weeping, bodies on the shore  
Crack the sunset safety glass, face the undertow  
Now it seems you wonder why you forced them to go

Come on lay your hands on me, I will save you everyone  
Feel the power of a darknet's promise, a mermaid's kill to come  
Blood runs down in your guilty world  
Blood on your hands, it's your guilty world  
Underneath your own safe skies  
Come on lay your hands on me, I will save you everyone  
Shoot em point blank, leave no trace when the sun on the ocean has gone

All along the borderline hear the sirens whail  
Carry the cargo on unmade road all the systems fail  
Have you ever seen them, have you ever tried  
When the walls come tumbling down no place to hide

While the man is driving the van all the kings want more  
Hear the women weeping, bodies on the shore  
Cause the man is driving the van Peter Pan awakes  
Another child is dying tonight in the land of fakes

## HENGEYOKAI

Riding on the sake feels like you're a sorcerer  
Riding on the wings of Tai  
I woke up in a layer of sweet perfume with a fox head by my side  
Yokimono was a gas, girl  
Yokimono was a gas, girl

Riding on the sake means that you're a sorcerer  
Riding on the asian breeze  
I woke up in a layer of sweet perfume with a fox head by my side  
Hengeyokai I woke up with the cokemoon high above

You masquerade on the dancefloor that's where you called my name  
On an alcoholic day in Hongkong and we played your game  
I woke up in a layer of sweet perfume with a foxhead by my side  
Yokimono was a gas, girl  
Yokimono was a gas, girl

Now there's no returning, I'm relying on your tricks, girl  
Riding on the wings of Tai  
I woke up in a layer of sweet perfume with a fox head by my side

Hengeyokai I woke up with the cokemoon high above  
Hengeyokai I woke up with the cokemoon high above

Yokimono was a gas, girl and then you called my name  
On a hot night in Tokyo and we played your game  
I woke up in a layer of sweet perfume  
Empty faces on the streets, bizarre dragon costumes  
Yokimono was a gas, girl  
Yokimono was a gas, girl

## **EGBERT (MADE OF RHEYNGOLD)**

Mind the steps I watch and care  
Thirty quid to trim your hair  
Perfumed oil, perfect for your beard  
Boulevard gossip you've never heard

Not en vogue since centuries  
Be as you wish to seem

My name is Egbert, soul of this town  
Made of Rheingold they call me Pfau  
That's too much wax, sir, we need to wash  
You will not mock me, punk, I run this shop

Not en vogue since centuries  
Be as you wish to seem

I've spend my money on strong liqueur – in future I'll take more care

My totem spirit is a moth  
Every sunday I perfume my froth  
The men of town they are fond of me  
Pay me silver for their dignity

The worlds face changes and I see their faces  
The smoke of my incense will blow it away  
The worlds go round and the cars make their sound  
And the merry-go-round, it will end some day

## FAUN

The radar lost him in the storm  
Why he'd taken flight we'll never know  
And butterflies from all around  
Sing the requiem to the faun  
A blackbox talked without sense  
Caught in a code no one understands  
You must be lonely, insecure  
With no control at all anymore

Not a day goes by

Chroi O my chroi O  
Chroi O my chroi O  
Goodbye, see you  
You're just a shadow of the man you should be

Make your escape, life turns too fast  
With all the memories from the past  
Dust and diesel and the air in here  
Is dead industrial so austere  
A black box talked without sense  
Caught in a code no one understands  
Cast a cold eye on life, on death  
Coming down means losing breath

Not a day goes by

Chroi O my chroi O  
Chroi O my chroi O  
Goodbye, see you

Have you seen the man selling souls to the city lights  
Tell it to the nightline tell it for they lose their minds  
Was his love based on chance meetings in anonymous cafes  
You're just a shadow of the man you should be

They found him in the glacier's heart  
The wings in shreds and torn apart  
And butterflies from all around  
Sing the requiem to the faun

## SHADOWLAND

The king has come they say, it was another lie  
Crosses burned where cities fell under their cry  
When in our minds we set the scene for shadowland  
And all the tv eyes were set on shadowland

They came on tall and proud and then they hit the ground  
An overdose of faith which got'em lost and found  
When in their minds we set the scene for shadowland  
And all the tv eyes were set on shadowland

The king has come they say, it was another lie  
Crusaders rode and cities fell under their cry  
And I stand guard, family, sea and sand  
When in their minds they sat the scene for shadowland

I don't know who I am  
I don't know who you are  
I am dancing

Where have your people gone, child, won't you tell me now  
Where have your people gone, child, won't you tell me now  
Did they fade away and left you all alone  
A pack of wolves in heat under a shadowmoon

I don't know who I am  
I don't know who you are  
I am dancing

Lost in this shadowland

The night is black, our dreams no longer sweet and real  
This land is cruel and this is how she cuts her deal  
A sign of life, well, there you are  
The guns are loaded and there's gas in the car

Child, tell me do you believe in god  
Child, tell me do you believe in god  
For if you do you better run and start to pray  
I'll hunt you down I've lost humanity today  
Child, I've lost my humanity today

I don't know who I am  
I don't know who you are  
I am dancing

Lost in this shadowland

## CRYOSPHERE

The whales have returned this morn  
They followed the call, fell prey to our signals  
The shining of winter skies  
The fox on the run, the sadness and burning  
Where the ocean meets the sky  
Where the ocean meets the sky

The places that I once loved  
Have frozen my soul, allow no returning  
Young girls in irish bars  
The truth in their glances triggered my yearning  
Down by the riverside  
The floods taking over, leaving no traces  
The fae have lost the land  
The ferries have vanished, we telephone our children  
Where the ocean meets the sky

Wild blossom on a surfboard with dyed short cut hair  
No rules, no guns, no borders, anyway we didn't care  
Tonight I think bout all those days we stranded on wild shores  
And all the roads that we've been trying, kamikaze u-turns flying

The whales have returned this morn  
They followed the call, fell prey to our signals  
The shining of winter skies  
The fox on the run, the sadness and burning  
Young girls in irish bars  
The ebb and flow of a young man's decision  
The frost is on the land  
My boat is so small, the sea so immense

I will see you in the cryosphere

## **ICE KING**

There she comes - so cold and pure  
And in her kiss, I rise and fall, I know for sure

That all her people in the land feel her passing by  
And all the otherworld ones hide when she's passing by  
Winter's coming down on a white horse,  
She smiles and whispers in your ear  
Soon we will bloom again

Folks call her cruel, but they have never felt and seen  
All of the beauty through the kiss of the ice queen

And through frost and snow I'll never let her go  
She got a hold of me for all eternity  
Winter's coming down on a white horse,  
She smiles and whispers in my ear  
Soon we will bloom again

Fear her, feel her, follow your heart right into the snow  
Touch her, free her, follow your heart right into the snow

Trapped in a snowglobe gods shiver and cry  
Ice queen is coming to stay  
Trapped in a snowglobe gods shiver and cry  
Ice Queen is coming to stay
